The man had a foolish expression on his face and he kept looking stupidly as if he was trying hard to understand what was going on. The man was accused of breaking into the house and stealing a cheap watch. The witness who was called did not give a very clear account of what had happened. He claimed to have seen the man outside the house one night, but on being questioned further, he confessed that he was not sure. Whether this was the man. The judge considered the matter for sometime and said that as there was no real proof the man could not be found guilty of any crime. He said that the case was dismissed and he then rose to go. The pressure of childhood or the pleasures of childhood? Children always wonder why they have to slog. They always want to play and concentration on studies is difficult. Most schools, instead of instilling confidence in the students, Only put fear into them. In many schools the strength of a classroom is about sixty or even more. So, it is practically impossible for teacher, to attend to each student's problems. So, the easiest way to maintaining order and discipline in classrooms is by instilling fear in the minds of students. So, it's a pity that most children grow up in this atmosphere of fear. No wonder that they often lack in confidence.

Parents, too, are to blame for this syndrome for they make the life difficult for their children by setting unrealistic goals without even assessing their strengths and weaknesses. And most parents try to live their dreams through their children. By doing so, I think they are doing great injustice to their wards.

The years in junior college are perhaps the toughest for any teenager. It is bewildering to learn that some of them study for 16 to 18 hours a day. The pressure to excel in academics begins from the eighth or ninth standard. Consequently students are forced to keep punishing schedules, which do more harm than good to them.

Today the competition in any walk of life is very stiff. So, it is very important that we build our self confidence and strengthen ourselves before picking up the gauntlet. Success in school and college does not always spell success. No doubt one has to do well in studies, but even more important is the process of learning. It is essential that we learn new things and move ahead in life.
